POU Notes for S/Sgt. Mike Stoll

NCRCC Commander advised that NCC were going to remove the structure at Confed Park at 1000 hrs but no POU on the ground until 1100 hrs so they will be pushed back.

Suggest Media strategy.

1115 hrs – Insp. Michel Marin arrived to exchange updates. Plans discussed with suggestions made. Explained what has been going on this morning (Confederation Park). Recommendations were discussed. Strategic direction is difficult.

- Tactical - Need to pick one task and get it done. Thinks the plan is good. Tactical to see if they need extra resources.
- Mike would like to have the planning leads with PLT, Traffic, Tow, Media, Tactical and POU together for a meeting.

Meeting with Michel Marin & Ken Bryden - POU needs a position paper about who they are and their analysis on their reaction to police action. FARFADAA is the name for the Quebec group. Analysts are gathering Intel for us. Threat assessments are needed. Would like to know how many trucks are unoccupied. Planning Committee doesn't have the time to read emails. What would be the PLT plan be? Options discussed – giving a few minutes heads up with an egress route to walk out. Need a place for those willing to take their own vehicles out when the people have all been removed – an inventory controller who takes their name, number and vehicle info. Base your response on their response. Suggest a test intersection. Negotiations options are being talked about. In the absence of a communication strategy, you get miscommunication and chaos. Suggest a couple of days of communication ahead of action. Position paper on FARFADAA is coming. FARFADAA have a contingency on the Quebec side right now.

Mike Stoll reviewed the SMEAC (presentation).

There may not be enough cement barriers, they have already shown they can move them. During the meeting information was provided that [REDACTED] is refusing to currently tow a vehicle from the downtown area right now.

Continue going through the Plan and Marin will speak with Media to get the Indigenous message out there.

Communications internally and externally are important.

FARFADAA has a group of their supporters on the Quebec side.

POU is having a hard time without some clear direction from the Chief's point of view.

Marin is to take the three options to the Chief.
